

## Setting up a class login

To enable your pupils to be able to access the Oxford Owl eBook Library either in class or at home, you need to have set up a class login. If you already have a class login, the Library, and any other products your school subscribes to, will automatically be added to it. Each class or year group will need its own class login as no more than 50 pupils can log in using the same username and password.

To set up a class login:

- 1 Log in to Oxford Owl, and hover over your name in the header bar. Select **Create class logins** from the dropdown menu.
- 2 Complete the **Class username** and **Class password** fields.
- 3 Click on **Create class login**.

The screenshot shows the 'Create class login' page on the Oxford Owl website. The page has a light blue header with the Oxford Owl logo and navigation links. The main content area is titled 'Create class login' and contains a form for setting up a class login. The form includes a 'Class username' field and a 'Class password' field, both with red 'Create class login' buttons. Below the form is a section titled 'Current class logins' which displays a table with one row: 'Class ID: Username: mary hamley's class Password: Wary' and an 'Edit class' button.

Then let pupils know the Class name and Class password, and, if they are practising at home, which eBook or Oxford Level you would like them to access (you may wish to use the template on the next page).

Provide parents and carers with [this information leaflet](#), which tells them how to access the ebook library.

For more support and answers to FAQs regarding **My class login**, please visit the [help page](#).

Visit the Oxford Owl eBook Library at [www.oxfordowl.co.uk](http://www.oxfordowl.co.uk). Click on **Log in** (top right) and enter the class name and password below:
